

How much does The Agency Advantage cost?

The cost is based on the configuration for your agency. We will be happy to provide you with cost information if you will provide us with details about your requirements. Please contact a representative at (800) 833-5179.

What are the network requirements for The Agency Advantage?

A dedicated server is preferred, but The Agency Advantage will work on a peer to peer network in smaller offices - up to about five workstations, depending on the amount of data and network traffic. Above five workstations, a dedicated server running with a Microsoft server operating system is highly recommended. For more information see our [system requirements](#) page.

Can The Agency Advantage manage all aspects of agency accounting?

Yes. Please see our page on [accounting](#) .

How much disk space is required for The Agency Advantage?

About 100 MB for the program to be installed on workstations. We recommend a minimum of 25GB of disk storage to begin electronic document storage. See our page on [document management](#) .

Does The Agency Advantage handle multiple agency locations?

Yes. Multiple locations are supported in real time on Wide Area Networks via the Internet. An agency can set up their own WAN or use the hosted version of The Agency Advantage with their data located in our secure data centers. Please see our page on [multiple locations](#) .

Does The Agency Advantage have ACORD forms?

Yes. Acord forms can be printed, saved and emailed as needed to be submitted to carrier.

Does The Agency Advantage support company downloads?

Yes. The Agency Advantage downloads personal and commercial lines from companies using the ACORD AL3 download format. Please see our [download partners](#) page for a complete list.
