

With decades of direct insurance industry experience, we've developed the most highly effective automation for the money. By paying close attention to the needs of our agents, our management system has evolved into the powerful, easy to use product it is today.

The Agency Advantage is widely recognized as a top vendor nationally and is setting the industry standard for agency management systems. Insurance agents who utilize this powerful technology immediately see increased sales, higher renewals and more profits. They've learned that they can depend on superior customer service and the rock-solid reliability of our product.

Advantage Information Systems, Inc. was founded to create *The Agency Advantage*, a comprehensive agency management software package that would be easy to use and increase productivity in the real, hands-on world of personal and commercial property and casualty agencies.

The Agency Advantage is unique in the industry with its company founders having 40 years of direct insurance industry experience including 15 years of agency ownership and 25 years automating insurance agencies. They bring their unique qualifications and insights to *The Agency Advantage* and continue to refine their product with a focus on efficiency, simplicity and superior customer service.

Our mission is to create tools which help agents write more business, increase renewals and make more money!

Our vision is to continue to enhance and refine *The Agency Advantage* in order to provide real agency automation at a price any agency can afford!

The Agency Advantage has offices and staff in Georgia and Alabama.
